<p style="text-align: center;">y</p> <p style="text-align: center;">25</p>	<p style="text-align: center;">qu</p> <p style="text-align: center;">26</p>
<p>3 sounds:</p> <p>y (vowel) happy, cry [2]</p> <p>y (consonant) yellow</p> <p style="text-align: center;">25</p>	<p>2 sounds:</p> <p>quick mosquito [2]</p> <p style="text-align: center;">26</p>

Here is a list of single phonograms.

a/d/c/s/o/f/g/h/t/r/n/i/e/m/p/l/u/j/b/x/z/v/w/k/y/qu/

How to make double-sided Flash Cards:

- Print single phonograms on white card
- Cut out so you have 26 Flash Cards showing the single phonogram at the top and an example of its use below. The phonograms are numbered.
- Fold & glue down so you have a double sided flash card, check that the numbers correspond.
- Hold up a Flash Card and teach the **sound** of the phonogram shown. Some phonograms have more than one sound. Give examples of all the sounds.
- These can also be used in a standard word chute or make your own for independent study.
